

EXproof

Products

Strong in explosion protection

Our entire product range is available in the explosion-proof (EX) version. The EX crane components are designed for loads up to 80 t. Our products can be used in zones 1 and 2 for gas protection as well as in zones 21 and 22 for dust protection. They meet the highest European and international safety standards according to ATEX and IECEx. Our EX products are used in all industries and we have many years of expertise in the EX area.

Electric Wire Rope Hoist NOVAex

+ Improved Safety

NOVAex electric wire rope hoists combine the proven advantages of the NOVA series with the requirements of operation in explosive atmospheres for maximum safety and reliability. Encapsulated electrical components, potential equalisation of all conductive components and various protective functions make NOVAex ready for handling tasks in explosive atmospheres.

Electric Chain Hoist ATHLO chain EX & SKex

+ The right solution for every EX application

In our ATHLO chain EX (Zone 2), ATHLO chain EX Zone 22 and SKex series, we have packed high-performance motors into a compact design. The extremely sturdy constructions guarantee long service life, reliable operation and low wear, maintenance and service costs.

Hand Chain Block CRAFTsterEX

+ Mobile and flexible EX all-rounder

CRAFTsterEX is independent of the power supply, offers a robust construction in combination with a high-quality interior and makes ideal use of space. The compact designed hand chain block is easy to transport to the site of operation and easy to operate.

Crane Components CraneKitEX

+ Individual EX crane systems out-of-the-box

The CraneKitEX offers all components – with the exception of the crane bridge – that you need to build a custom crane. The pre-assembled and pre-wired components interact safely and reliably. The kit stands out with its fast assembly and flexible customization options.
